Ingrid,

The Trace Detection Laboratory at TSL has completed an evaluation of a hand sampling swab for the Smiths Detection 500DT Explosive Trace Detector, provided by DSA Detection, North Andover, MA. Item evaluated:

<u>DSA Part #</u>	<u>Description</u>
DSW1200	Hand swab for Smiths 500DT, 200 ct.

This DSA sample swab was tested for detection performance and is approved for use with the Smiths Detection 500DT Explosives Trace Detector. This product is used for 500DT sample collection without use of the Smiths sampling wand.

A handwritten signature in black ink that reads "Sheldon Brunk".
