Dawn,

The Trace Detection Laboratory at TSL has completed an evaluation of Verification Sample B (Positive), Sieve Canisters, and Calibration Traps for use with the L3 (Implant Sciences) QS-B220 ETD, provided by DSA Detection, North Andover, MA. Items evaluated:

<u>DSA Part #</u>	<u>Description</u>
BSB 1035	Verification Sample B (Positive)
BSC 1310	Sieve Canister, single
BSC 1329	Sieve Canister, 4-pack
CT 1272	Calibration Traps, (25ct.)

These consumable products were tested for performance and suitability on the L3 (Implant Sciences) B220 ETD, and all are approved for use with this ETD system.

A handwritten signature in black ink that reads "Sheldon Brunk".
